SUMMARY

A highly motivated Software Developer with over 3 years of experience in developing and implementing web and mobile applications using Next.js, React Native React, Django, and Firebase e.t.c. A Strong background in front-end and back-end development, with a proven track record of delivering high-quality, scalable solutions. Quick learner and goal-oriented, with a passion for solving complex problems and contributing to team success. Seeking to leverage my skills and experience in a dynamic environment to create innovative solutions and drive business growth.

EXPERIENCE

Heritage Energy Operational Services Limited (HEOSL)

ICT intern

Warri, Delta state.

Mar2023 - Aug2023.

- Developed a Django-based web application for computer-based testing, streamlining and enhancing the efficiency of the internship recruitment process.
- Assigned to develop a hospital management system for the company using two approaches: HTML, CSS, and PHP for one, and Django with Python for the other.
- Provided IT support across the company, assisting with various hardware-related computer issues.
- Received basic training in oil field operations, working alongside field operatives and gaining valuable insights into their operational processes.

PROJECTS

Multi-purpose student assistant application.

Project Developer.

- Developed a multi-purpose student assistant application. Developed the app using React Native, Expo SDK, and Firebase, implementing various features to enhance campus life for students.

Inventory management systems.

Project Developer.

- Developed a comprehensive inventory management system designed to streamline inventory control and enhance operational efficiency. Key features include: Expiration Alerts, Email Notifications, Sales Recording, Sales Analytics. This system leverages advanced technologies to provide real-time inventory tracking and actionable insights, significantly improving inventory management processes.
